Renewed Facility Operating License No. DPR-18
Docket No. 50-244

Response to Request for Additional Information regarding License Amendment
Request on Revising Section 3.6.5 of the Technical Specifications,
"Containment Air Temperature"

- REFERENCES:**
- (a) Letter from J.E. Pacher (REG) to NRC Document Control Desk, 'License Amendment Request, Revise Section 3.6.5 of the Technical Specifications, "Containment Air Temperature,"' dated February 28, 2013 (ML13067A328)
 - (b) Letter from M.C. Thadani (NRC) to J.E. Pacher (REG), 'Request for Additional Information Regarding Amendment to Revise Technical Specification 3.6.5, "Containment Air Temperature," (TAC No. MF0900),' dated September 24, 2013 (ML13261A061)

By Reference (a), R.E. Ginna Nuclear Power Plant (REG) submitted a license amendment request to revise Section 3.6.5 of the Technical Specifications, "Containment Air Temperature," to increase the allowable containment average air temperature from 120°F to 125°F.

By Reference (b), the U.S. Nuclear Regulatory Commission (NRC) requested additional information from REG to complete its review.

The response to Reference (b) is provided in Attachments (1A) and (2). A redacted, non-proprietary version of Attachment (1A) is provided in Attachment (1). Attachment (3) is the Westinghouse Application for Withholding Proprietary Information from Public Disclosure CAW-13-3847 accompanying Affidavit, Proprietary Information Notice, and Copyright Notice.

As Attachment (1A) contains information proprietary to Westinghouse Electric Company LLC, it is supported by an Affidavit signed by Westinghouse, the owner of the information. The Affidavit sets forth the basis on which the information may be withheld from public disclosure by the Commission and
